

LAUNCH AND LEAD

Research Career Development Workshop

WHAT WILL YOU GET

- Insights into entrepreneurship, lab management, and career development
- Best practices for building biosketches, ORCID profiles, and academic presence
- Practical guidance on responsible AI use in academic research
- Strategies for maximizing research, internship, and externship experiences
- Skills for crafting and delivering effective oral presentations

OUR ACTIVITIES

- Morning breakout sessions across three tracks: Student Series, Career Series, and Research Writing Series
- Networking lunch with peers, faculty, and professionals
- Graduate and Professional School Fair

Our Goal: Give researchers at every stage of their career the tools and relationships they need to make their work matter beyond the lab
